Journalism is often referred to as the first draft of history. Here at BPL, we know that the first draft of history is just as important as the last, and that staying up-to-date on current events and being a well-informed citizen and patron is vital to both your personal life and our country's general welfare. To keep you well informed, we carry newspapers that are from the local, state, tribal, and national levels, which provide in depth coverage of daily news and current events from next door to around the globe.

Farther along the information cycle are magazines, which are generally published weekly or monthly. This less frequent distribution allows more time for stories to develop and for reporters to gather facts, quotes, and other information that can lend a broader perspective to a story. Like the newspapers, we carry titles that are from the local level such as Bartlesville Monthly, from the state level such as Oklahoma Today, and from the national level of distribution like the Economist, Time, and Rolling Stone. For every interest there is usually a magazine dedicated to that niche, e.g., for the sports fan there is Sports Illustrated, for the globe trekker at heart we have National Geographic and Nat. Geo. Traveler, and for the gearhead we have Car & Driver, plus dozens more.
