FEATURED LEARNER: YEONJU PARK

When Yeonju moved from her native South Korea to Bartlesville for her husband's job, learning English became a high priority. "Before I came here, I was a person who didn't speak English," Yeonju says, "but now I have to speak English to live in Bartlesville." Yeonju signed up for one-to-one tutoring at BPL Literacy Services, which Yeonju says has helped her to improve her grammar and pronunciation skills. "My pronunciation has gotten better and I learned more English expressions," according to Yeonju. Meeting regularly for one-to-one tutoring and conversation practice has been beneficial to the BPLLS learner. "It's nice to be able to learn English by talking with an English tutor," says Yeonju. The BPLLS program has provided much support for Yeonju to achieve her learning goals. "I want to speak English well," Yeonju says. We are very proud of Yeonju's efforts and we thank her for sharing her experience with us!

JASON HALL, MS, CMES FITNESS TEAM LEAD, WELLNESS ASCENSION ST JOHN JANE PHILLIPS

BPL Literacy Services is proud to partner with Jason Hall, Fitness Team Lead at the Wellness Center - Ascension St. John Jane Phillips, to offer FREE monthly health and wellness presentations to the public.

These presentations are in conjunction with the health literacy project coordinated by BPL Literacy Services thanks to a federal grant from the Institute of Museum and Library Services and administered through the Oklahoma Department of Libraries. In the past, Jason has helped provide presentations from doctors, nurses, and other specialists at Ascension St. John Jane Phillips on diabetes, atrial fibrillation, cardiac health, and many fitness topics. We are fortunate to have Jason himself presenting on two interesting fitness topics this summer. On Thursday, July 11, Jason will talk about Exercise Mythology: Common Myths and Misunderstandings. In this discussion, he will expose some of the most common myths and misunderstandings that you find in the health and fitness industry such as "no pain, no gain." Jason says, "With the internet and so many 'Gurus' and quick fixes out there, it's easy to be persuaded to follow misinformation or to know what's true and what's not." Jason will help you sift through the dirt and highlight how some of these myths can be harmful! He will uncover the real truth to help you exercise safely and effectively! On Thursday, August 8, he will discuss the major muscles of the leg/hip, why it's important to keep them strong, and how to help strengthen these muscles. This presentation is free and open to the public. No registration is required.
